

Scoutlier provided an highly effective platform to support virtual learning during school closure. Learning outcomes even compared well to in class (face-to-face) instruction, especially for vulnerable students (ELL, IEP/504).

Trial Design
 Students: 71 total in grade 10 Biology class (with a few grade 9 or 11 students); 36 General Ed, 20 IEP/504, 15 ELL
 Location: Small school district in SE Massachusetts
 Description: Classroom work submitted prior to school closure (Jan - March 2020) was reviewed and scored for completeness and quality. After a one month adjustment period focused on district-assigned work (March - April 2020), students were assigned lesson on Scoutlier for 6.5 weeks (April - June, 2020). For more information on this trial contact us at info@scoutlier.com
